

***The National Flea Market
Association has partnered
with Cardiac Science to
Protect and Save Lives!***

Because Sudden Cardiac Arrest is the #1 Killer of Americans, the National Flea Market Association has partnered with Cardiac Science to place AEDs at Flea Markets across the country. Cardiac Science's Powerheart G3 Automatic is the only AED to be fully automatic with the added safety feature of a text display, and features daily self-testing to ensure reliability. To learn more about this life-saving technology and leverage the special pricing negotiated by NFMA, please contact Cardiac Science at 800-991-5465. Ask us how you can get a free wall cabinet with strobe light and alarm (\$399 retail value) with your purchase by June 30, 2006.
